

## Electrical Fire Risks in Old Homes

**Wednesday, March 6, 2019 | 8:45am – 12pm PST | Insurance Institute of BC**

**CLASSROOM | BUILDING | TECHNICAL**

Electrical fires in older homes continue to be a concern within our industry. This interactive seminar will explore predominant electrical fire hazards in older homes and provide solutions to mitigate these risks. Through case studies, you will examine where electrical fire hazards are commonly present in older houses and provide new cost-effective solutions to reduce electrical fire risks.

### SEMINAR OBJECTIVES

- Identify predominant fire hazards in older homes & indicators of high risk homes
- Determine amp service & wiring type: knob-and-tube and aluminum
- Examine conditions where a mix of different wiring is present in one building
- Learn about trends in residential electrical around BC
- Examine residential electrical changes & their expected impact in the next 10 years

**QUESTIONS** | As this is an interactive session, attendees are encouraged to submit questions prior to the seminar. Please email these questions to Winnie Hon at [whon@insuranceinstitute.ca](mailto:whon@insuranceinstitute.ca).

### SEMINAR PRESENTER

#### **Brian Cook**

President, **PowerCheck Electrical Safety Services**

Brian has an in-depth knowledge of electrical systems and electrical fire hazards in older buildings and is keenly interested in electrical safety. He is a licensed electrical contractor and a registered Electrical Field Safety Representative. His expertise is founded on 36 years of experience in the electrical field. He has authored post-secondary curricula on electrical systems for BCIT and has lectured on electrical safety at the University of British Columbia. He has had numerous articles and papers on electrical safety published and extensive experience lecturing at UBC. Mr. Cook is the proud recipient of the 2013 BC Safety Authority - Lieutenant Governor Safety Award.
