

# Live Burn!

At Lions Bay Fire Rescue Training Grounds

Thursday, November 7, 2019  
8:45am – 3:30pm PST

Very limited capacity!  
Register early!

A full day live fire demonstration designed to provide an in-depth understanding of theory and practical aspects of fire losses.

The morning presentation will move from fire dynamics to fire scene protection aimed to increase subrogation success. The afternoon will consist of live burn demonstrations of two burn cells constructed to resemble a furnished room.

## CLASSROOM | ENHANCING | TECHNICAL

**Audience:** Adjusters, Fire Investigators

### **Seminar Objectives:**

- Review fire dynamics
- Examine fire scene examination and evidence preservation
- Identify post flashover fire effects on cause classification
- Compare smoking vs open flame (incendiary) fires

### **Burn demonstration will include observations and discussion on:**

- How long it actually takes for a cigarette to ignite
- How fast fire develops in a normal bedroom
- How to conduct a scene examination
- How ventilating fires can damage a scene making it challenging to determine the cause

## **Presenters**

Presentations and demonstrations will be conducted by fire investigators and forensic engineers with extensive experience in fire investigations and administering live burns.

**Tom Hoppe, Origin and Cause**

**Russ Friesen, Origin and Cause**

**Shirley Niven, Origin and Cause**

**Scott Broad, Envista Forensics (Toronto)**

**Arya Oskui, Envista Forensics**

## **Schedule**

8:15	Check-in opens
8:45 – 12:00	In-class Seminar
12:00 – 1:00	Lunch
