

Demystifying Cyber Liability: Hackers, Ransomware & Social Engineering Fraud

Thursday, April 12, 2018 | 1:00 – 4:15 pm | Coast Bastion Hotel (Nanaimo)

CLASSROOM | ENHANCING | TRENDS

Every day there are headlines in the paper about Cyber-Attacks. A recent headline read “Equifax breach sends shivers into Canada”. This recent cyber-attack exposed the personal information of 143 million Americans plus an unspecified number of Canadians. Attend this seminar to learn about liability exposures for private organizations in Canada. A live Ransomware demonstration will show how easy it is to infect a business with Ransomware. Network Test Labs will provide their predictions on what the future could hold concerning cyber-attacks.

Disclaimer: The live Ransomware demonstration being conducted by Network Test Labs (NTL) is for educational purposes only. What will be shown in this presentation if used maliciously is HIGHLY ILLEGAL and can result in fines and/or jail time. The goal of this presentation is to inform and show the audience how easy it is to get targeted and infected with Ransomware. NTL adamantly discourages and condemns the malicious use of any part of the information shared in this presentation

SEMINAR OBJECTIVES

- Learn the new Canadian breach notification and breach log regulations
- Examine recent precedents for settlement framework and damage calculations
- Review Case Examples and Lessons Learned
- Identify coverage issues relating to Ransomware and Social Engineering Fraud
- Explore Cyber Liability policy form enhancements and coverage trends
- Experience a live Ransomware attack
- Discuss the history and future of Ransomware
- Address the importance of good cyber security hygiene
- Understand why Cyber Insurance is a good choice
